

Public Advisory

BOIL WATER NOTICE

Bartow County Water Department
50 Nelson Street : P.O. Box 850
Cartersville, GA 30120
(770) 387-5170

A broken water main has caused water pressure in parts of our water system to drop below normal operating levels. When this occurs a potential health hazard may exist in these areas of low pressure from backflow and/or back-siphonage of water of unknown quality into the water distribution system.

In order to protect the public from a potential health hazard all citizens that have experienced water outages and/or low water pressures are advised to “boil” all water prior to use for drinking, cooking, or preparing baby food. The water should be boiled for at least one minute after reaching a rolling boil. Citizens should continue to boil their water until they are notified by our drinking water utility that the water system has been restored to full operation and that the microbiological quality of the water in the distribution system is safe for human consumption.
