SUPERVISORY CONTROLS

The Director or Engineering Division Manager assigns work in terms of division goals and objectives. The supervisor reviews work through conferences, reports, and observation of division activities.

GUIDELINES

Guidelines include the Safe Drinking Water Act, the Clean Water Act, other state and federal water and sewer regulations, accepted trade practices, water and sewer specifications, Highway Department standards, and local ordinances, policies and procedures. These guidelines require judgment, selection, and interpretation in application.

COMPLEXITY/SCOPE OF WORK

- The work consists of varied management, administrative and engineering duties. Strict regulations contribute to the complexity of the work.
- The purpose of this position is to review, design and manage construction and maintenance projects of the Water Department. Successful performance helps ensure the effective and efficient operation of the department and ensures compliance with all relevant regulations.

CONTACTS

- Contacts are typically with co-workers, vendors, contractors, other county employees, elected and appointed officials, engineers, real estate developers, business representatives, representatives of state and federal agencies, and the general public.
- Contacts are typically to exchange information, negotiate matters, resolve problems, and provide services.

PHYSICAL DEMANDS/ WORK ENVIRONMENT

- The work is typically performed while sitting at a desk or table or while standing or walking. The employee occasionally lifts heavy objects, climbs ladders, and utilizes the sense of smell.
- The work is typically performed in an office and outdoors. The employee is exposed to machinery with moving parts, contagious or infectious diseases, irritating chemicals, and occasional cold or inclement weather. The work requires the use of protective devices such as masks, goggles, gloves, etc.

SUPERVISORY AND MANAGEMENT RESPONSIBILITY

None

MINIMUM QUALIFICATIONS

- Knowledge and level of competency commonly associated with the completion of a baccalaureate degree in a course of study related to the occupational field.
- Certification as a Professional Engineer or Engineer in Training.
- Experience sufficient to thoroughly understand the diverse objectives and functions of the subunits in the division/department in order to direct and coordinate work within the division/department, usually interpreted to require one to three years of related experience.
- Possession of or ability to readily obtain a valid driver's license issued by the State of Georgia for the type of vehicle or equipment operated.
