

CARTERSVILLE-BARTOW METROPOLITAN PLANNING ORGANIZATION

To: CBMPO TCC and Policy Committees
From: Tom Sills
Subject: UPWP Amendment regarding CBMPO Self-Certification
Date: February 12, 2018

Metropolitan Planning Organizations are periodically required to review their processes and procedures to ensure they conform to federal regulations and operating guidelines. The review takes place internally and on an annual basis. This review is not a work element within the Unified Planning Work Program. It is the recommendation of the GDOT Office of Planning staff that we include this self-certification as a work item to accomplish during the year.

Changes to the UPWP require a 30-day public review and comment period prior to its adoption in final form. This amendment will be in final form to adopt by the next scheduled meeting of the CBMPO Policy Committee in May 2018.
